IGP POWDER COATINGS

References

Mercator One

The 2,000 m² site on Portsmouthplatz in Duisburg underwent redevelopment with the goal of restructuring the area surrounding the central station. The primary focus was enhancing the urban design of the regenerated Portsmouthplatz with an architecturally sophisticated new building.

IGP POWDER COATINGS

Details

The new structure makes an urban statement, featuring a façade clad in premium materials – predominantly large glass and aluminum elements. The ground floor, with its extensive glass elements, provides transparency and a sense of lightness. The versatile architecture allows for various types of office use across four floors.

The architectural images were provided by photographer Jürgen Mecke.
