IGP POWDER COATINGS

SUCCESS STORY

LISTA OFFICE LO, DEGERSHEIM (CH)

ATTRACTIVE AND MODERN WITH IGP-DURA®ONE

Lista Office LO, based in Degersheim, Switzerland, is part of the Lista Office Group and a leading manufacturer of steel office furniture systems. The company designs innovative workspaces with high-quality layouts and ergonomic solutions that promote productivity. The switch to IGP-DURA®one 56 powder coatings gave the company's new collections a more contemporary look and an even more appealing color palette.

Product overview

IGP-DURA®one

Area of application
Coatings for work and living spaces (office furniture, chairs, shelving, etc.).

Product description
IGP-DURA®one 56 is a range of certified low-temperature powder coatings for application on metallic components in interior and exterior areas (from 15 min / 160°C). The product range includes a variety of shades and effects in different surface and gloss finishes.

«IGP has been a trusted partner for many years, providing exceptional support as we modernized our color palette.»

Hansruedi Beerli, Lista Office LO
Product Manager

THE INITIAL SITUATION

In response to current color trends in the office and home furniture sector, Lista Office LO decided to update and evolve its color palette. The new shades allow for furniture designs that feel both modern and inviting. Through close collaboration with IGP and suppliers, and the thoughtful selection of new wood décors, the company has successfully set a clear course for the future. The main goal: to create workplaces that feel more homely – true spaces of well-being.

THE SOLUTION

The IGP-DURA®one 56 color range combines aesthetics, functionality, and sustainability. The IGP NCS color palette enabled the creation of harmonious color schemes for office and living spaces – aligned with current trends and the increasing demand for a cozier, more inviting atmosphere. IGP-DURA®one 56 low-temperature powder coatings (15 min / 160°C) also allow for highly efficient, energy-saving, and cost-effective application.

THE ADDED VALUE

Choosing the 56 series significantly boosted the appeal of the color range – especially by combining steel shades with coatings that replicate wood-based materials and natural wood tones. This flexible color palette allows for greater variety and consistency across all furniture lines. In addition, IGP-DURA®one 56 delivers substantial energy savings. Lista Office LO plans to further increase efficiency and sustainability in the future – and the groundwork has already been laid.
